SUMMARY

I'm a Full Stack Web Developer with hands-on experience building responsive and scalable web applications through Fullstack Web Development program at Purwadhika Digital School. I've worked on real-world projects using JavaScript, TypeScript, React, Next.js, Node.js, PostgreSQL, and Docker. I'm passionate about crafting clean, user-focused digital experiences and thrive in collaborative environments. With a strong foundation in problem-solving, adaptability, and the ability to learn quickly, I'm eager to contribute to impactful projects while continuously growing as a developer.

PROJECT EXPERIENCE

Explorama – AI Powered Travel Agency Dashboard

Typescript, React, Vite, Tailwind, Appwrite • github.com/Hrmn-07/explorama • April 2025 – May 2025

- Built a full-featured dashboard web app for a travel agency, enabling users to generate personalized AI travel plans based on preferences
- Integrated Appwrite for authentication, user management, and real-time database operations
- Implemented data visualizations to display key metrics such as customer activity, travel trends, and trip statistics using interactive charts
- Designed and styled responsive UI components with Tailwind CSS for seamless user experience
- Developed admin features for managing users, trips, and platform data efficiently

Shopset – Modern Ecommerce Web App

Typescript, Next.js, Sanity CMS, Clerk, Zustand, Tailwind • github.com/Hrmn-07/shopset • January 2025 – March 2025

- Developed a fully functional e-commerce platform featuring product browsing, dynamic routing, and user authentication
- Integrated Sanity CMS for flexible product content management and Clerk for secure user login, sign-up, and session management
- Managed global state using Zustand, improving performance and reducing prop drilling across components
- Styled the entire UI using Tailwind CSS, ensuring a responsive and modern user experience
- Implemented client-side cart functionality and server-side rendering with Next.js App Router

MoviSpot – Mobile Movie Discovery App

Typescript, React Native, Expo, Tailwind • github.com/Hrmn-07/movispot • December 2024 – January 2025

- Developed a cross-platform mobile app using React Native, TypeScript, and Expo, ensuring smooth performance across iOS and Android devices
- Designed and implemented a modern, responsive UI with Tailwind CSS, following current UI/UX best practices for optimal user engagement
- Integrated ranking logic based on movie popularity and engagement metrics to enhance content discoverability
- Focused on real-world scalability and performance, structuring the app for future data integration and feature expansion
- Delivered a seamless and intuitive browsing experience with efficient navigation, layout optimization, and responsive design principles

EDUCATION

Full Stack Web Development

Purwadhika Digital Technology School • 2025

- Completed an intensive, project-based training program focused on real-world software development and modern web technologies
- Gained hands-on experience in both frontend and backend development, building full-stack applications from concept to deployment
- Learned and applied industry-relevant tech stacks including JavaScript, TypeScript, React, Next.js, Node.js, PostgreSQL, Tailwind CSS, Git, and Docker

CERTIFICATIONS

Full Stack Web Development Bootcamp

Purwadhika Digital Technology School • 2025

The Modern Python 3 Bootcamp

Udemy • 2024

Go: The Complete Developer's Guide (Golang)

Udemy • 2024

SKILLS

Hard Skills: Javascript, Typescript, Python, CSS, Git, React, Next.js, REST API, Tailwind, Node.js, HTML, Docker, Golang, Vercel

Soft Skills: Team Collaboration, Problem Solving, Adaptability, Time Management
Language: English, Indonesia
